DEDICATION

An annual is a collection of memories. And certainly, as we turn the pages of the 1969-70 Wo He Lo, memories will crowd upon us like autumn leaves falling in the wind and being caught in the corner of the yard. For the annual staff, and others, among these memories will be the image of an individual with "get up and go" that definitely has not "got up and went." For she is devoted to even the word WORK. She has served on as many committees for special occasions on this campus as any other one person and more than most--a testimony of her loyalty to the college. May Day, Beauty Pageants, Homecoming, Style Shows, Faculty Brunches--all have demonstrated her touch. She is respected as a teacher, for she knows and enjoys her field. She herself is a collector, not just of memories, but of everything from recipes, gadgets, magazines, and newspaper clippings to quotations and bits of philosophy. She saves everything but TIME; that she uses. A genuine person, she is never too busy to listen to a student's problem, never too discouraged to keep trying to challenge students in her classroom, and never too exasperated to keep working on her perennial project--the annual. Her own ambition to make something beautiful of the annual has given us the ambition to help her reach her goal. Each time we turn the last page of this issue, we will remember with affection, the one to whom we appreciatingly dedicate the 1969-70 Wo He Lo -- Mrs. Ruth Hull, friend and booster of us all.

Engineers' Creed

As a Professional Engineer, I dedicate my professional knowledge and skill to the advancement and betterment of human welfare.

I pledge—:

To give the utmost of performance;

To participate in none but honest enterprise;

To live and work according to the laws of man and the highest standards of professional conduct;

To place service before profit, the honor and standing of the profession before personal advantage, and the public welfare above all other considerations.

In humility and with need for Divine Guidance, I make this pledge.

Purpose: To develop the beginning student's interest in the engineering profession. To create the student's understanding of the professional aspects of engineering. To direct the graduating senior toward definite steps of obtaining professional status throughout certification and registration.

The purpose of the Baptist Student Union is to lead students to know Christ in a personal experience, and to teach and lead Christians to live daily in the faith. Through worship, Bible study, counseling, personal witnessing, fellowship, recreation, missions, retreats and conventions we seek to fulfill this purpose.
